

## **PARTICIPA! DENTAL SERVICES**

Participa! Inc. Mobile Dental Services is a non-profit service organization whose mission is to increase access to dental services for New Mexico children. Participa! is a portable school-based program staffed with licensed dental professionals. Participa! provides comprehensive dental exams, dental cleanings, topical fluoride treatments and dental sealants for all children that return a parental consent form. Medicaid or private dental insurance reimburses us for providing these services. A Department of Health grant helps provide limited funding for children who are uninsured.

For additional information please visit <https://www.participadentalservices.com/>

**Participa! Dental Services will be in Bloomfield School District during the fall semester of school year 2023-2024. Exact dates will be communicated with all parents and guardians in the new school year. Please complete the attached consent form if you would like your student(s) to receive these free services. This mobile service also helps Bloomfield School District comply with the New Mexico Public Education Department (NMPED) New Mexico Administrative Code (NMAC) 6.12.13. This rule requires all New Mexico public and charter schools to verify student records of a dental examination within the past year prior to initial enrollment in the school district or charter school.**

**If you have any questions, you may contact the health office at your student's school.**

**Thank you!**
